## Spring 2007 Newsletter

We are always looking for good **trap help** to make our shooting go smoothly. Please consider volunteering your time for an afternoon/night or two to help your club out. This becomes particularly important after league starts and before school is out for the summer. Our paid trap help is more available after June 1<sup>st</sup>. Please call Director Steve Manary at 981-4455 or e-mail at [smanary@southslope.net](mailto:smanary@southslope.net) if you can help out. We also would appreciate any names of young people who would be interested in working at OCSC. The BOD has increased the pay scale to \$7.75/hour for trap help beginning May 1<sup>st</sup>.

**Trap Class** will begin Monday, April 16<sup>th</sup> at 6:30 p.m. with a signup/orientation/safety session. Shooting sessions will follow on April 18, 21, 23, 25, and 28. Come out and let us help you prepare for the new season. Call the club for more details at 398-5814.

**League Hours** will be the same as last year as will the days your club will be open for shooting. Please consult your calendar for OCSC ATA events which may affect league shooting. Your BOD has deemed that if the practice trap is open and pullers are available we will throw league score targets during ATA registered shooting. **Note: League Rules and Organizational meeting is scheduled at 7:30 p.m., April 25, 2007.**

**Skeet Shooting** will be available Thursdays and Sundays once the spring/summer hours are in session. Since we had only 5 shooters in a skeet league this past year we do not plan on having a formal skeet league. Should 15 skeet shooters present themselves as a league we will reinstate the summer skeet league.

The **Harlan Campbell Shooting Clinic** is a two day class taught by the captain of the All American ATA Trapshooting Team. OCSC is privileged to host this class for the third year. Cost is \$275 for the class plus targets. Space is available for April 4&5 session and April 9&10. Contact Steve Manary at 981-4455 or [smanary@southslope.net](mailto:smanary@southslope.net).

We all know that the **price of our sport** continues to increase. Please know that the BOD is always considering ways to keep all our costs affordable. If you haven't visited the club to buy components for awhile you will find our member prices have significantly increased. The club reserves the right to change prices and modify our hours of operation if costs continue to increase.

**Shooters will be required to wear eye and ear protection** during shooting. Please help and be a good example for other shooters when it comes to these safety practices. The club has some glasses available for limited use and soft ear plugs available at the counter for minimal cost.

Our web site [www.ottercreeksc.com](http://www.ottercreeksc.com) is a great place to check on club news, league standings and upcoming events.
